- Boat Stand as pictured

Image: IMG\_9481.jpg ↗

### ***Condition***

Ready to go, built by an experienced builder and recently used as a demo boat. Condition appropriate to its age. Proven to work when tested.

### ***History***

Image IMG\_9481.jpg

Hull No 11 built by “Stoney”, one of the club founders late in 2005. Marine ply frames (bulkheads) and outer hull. One of a series he built (all white) when the club was founded, intended for new members unable to build their own boats. **“One of the originals”**.

Only two owners, members 8 MP & 134 DS. Unused for several years until passed back to the Club in 2024 where it has been sailed as a demo boat. Between owners found its way to cash converters where the Club purchased it back & painted it Blue (originally white) when it was sailed for a short time by the Club founder before being sold to its second owner. A good solid boat.
